MISC MAINTAINS POSITION ON FTSE4GOOD WITH IMPROVED SCORE

On 14 June 2016, MISC was notified that it remained a constituent of the FTSE4Good Bursa Malaysia Index with an improved overall score.

MISC's inclusion in the FTSE4Good Bursa Malaysia Index (also known as the Environmental, Social, Governance (ESG) Index), for Malaysian Public Listed Companies indicates that MISC has a leading approach within the Malaysian market in managing its ESG risks.

The FTSE4Good measures the performance of companies demonstrating good ESG practices and is aligned with other leading global ESG frameworks such as the Global Reporting Initiative (GRI) and the Carbon Disclosure Project.

MISC was part of the first set of companies to be included in the FTSE4Good index when it was launched on 22 December 2014 and has maintained its position ever since.

On another positive note, MISC has also published its Sustainability Report 2015 which provides an update of the Company's commitment, strategy and performance for the year and progress towards its sustainability goals.
