

Personal Data Protection

MISC has developed the Operational Guidelines for Compliance with the Personal Data Protection Act 2010 (PDPA) to assist its Business Units/ Service Units (BUs/ SUs) in determining the necessary measures and the necessary improvements and adjustments to the existing practices of managing personal data to align them with the principles of the PDPA.

As a starting point, BUs/ SUs are required to identify the areas of its operations that deal with the management and handling of personal data, collection practices, access and correction procedures, storage and security system and disclosure practices.

*When in doubt please consult your superior or HR or Compliance Department
